

## Odd Fellows' Building Will Be Fine Structure

Strathcona Odd Fellows Will Erect Magnificent Three Storey Building on Corner of Niblock St. and Rouleau Ave.—W. H. Martin & Co., Contractors.

The Oddfellows' Temple, the contract for which was let last night to W. H. Martin and Company, will be a structure in harmony with the dignity and progressiveness of this city and a credit to the noble order which, taken all in all, has not been surpassed by any assembly of men in exemplifying its foundation principles, the Fatherhood of God and the Brotherhood of man. The Oddfellows' building will combine the elements of sentiment and utility in such a way as to be at once a landmark pointing to the progress of the order and a convenience to the public which will meet a long felt want, and besides all else the Strathcona Odd Fellows' building will be a structure that will take its place alongside the University, the Collegiate, the churches and other buildings in lending beauty and glory to the city and marking a mile post on its way to prosperity and greatness.

The building will have a frontage on Niblock Street of 132 feet and on Rouleau Avenue of 49.6 feet. It will have three stories and a basement, will be built of brick and steel with stone trimmings, will be fifty feet high and the basement walls will be of solid concrete.

The ground floor will be used as an auditorium, a much needed convenience in this city, with a seating capacity for 1,000 people, with stage accommodation for first class shows, banquets, entertainments and amusements.

The second floor will have 16 offices, two lavatories, and a caretaker's room. The top floor will have one main lodge room 47 feet by 82 feet, 6 inches and a ladies' Temple 22 feet 6 inches by 47 feet.

with ante rooms and dressing rooms for each.

The basement will be used for manufacturing purposes, except in one end where there will be a kitchen with a range and other cooking utensils and a dumb waiter which will connect with the various floors for banquet and social purposes.

The interior fittings throughout will be of B.C. Fir and the floors of every story will be of maple.

The building will be heated by steam and lighted by electricity and all the latest sanitary appliances will be used.

An elaborate main entrance to the auditorium is provided with ticket offices and checking rooms on each side. The stage will be accommodated with dressing rooms and lavatories. The ceilings of the auditorium will be 18 feet, of which 11 feet, and of the lodge 12 feet high.

The building was designed by the contractor and architect, Mr. W. H. Martin, himself, and will cost, when completed \$80,000. Although work was only let last yesterday evening, work has already been begun with dressing rooms and lavatories for the foundation will be commenced in a day or two. The association on whom rest the responsibility of the Temple building, consists of J. F. W. President, H. Duncan treasurer, J. C. Wainwright, secretary, and a board of directors consisting of the above of G.H. Elliott, A.H. Richards, Geo. Groat, A. E. J. P. Manning, J.D. Foster, J.E. Green.

The association will be incorporated immediately with a capital of \$50,000, the first instalment being in the form of preparation by J.R. Lavell.

## Killed by Revolutionists

New York, May 28.—Some facts have been learned in connection with the murder of Rev. Father Valentin, the Armenian priest, whose dead body was found in a trunk in a lodging house on West Street on Sunday, which indicate that deceased was a politician as well as a clergyman, and it is supposed was murdered by revolutionists in this city. There has been a serious split in revolutionist circles for some time, and a member of the band to today intimates that the death of the revered good man was due to that fact.

## Robbed the Dead

Allentown, Pa., May 28.—Circulated about \$30,000 and accident insurance policies aggregating \$50,000 are missing from the effects of Louis M. Ellengh of this city, a member of the Ruffian, and his wife, who were killed in the wreck of the Mytic Shippers train at Honda, California. The loss containing the Ellengh effects was received today by the coroner for the estate, who found that most of the jewelry that Mr. and Mrs. Ellengh were worth they left on the train together with the accident papers were gone. It is supposed that the game and policies were stolen.

## New Thaw Trial Next Fall

New York, May 28.—Mrs. Evelyn Nesbit Thaw, who has made the hotel for her husband, Harry K. Thaw, has been in the Tomb for the murder of Stanford White, has with her lawyer today, Mrs. William Thaw, taken her home in a house in Park Avenue at Fifty-Ninth Street. There the two women will remain in seclusion for the summer, it is said, so as to be within all of the prisoner and to await the trial at that time. The second trial of Thaw will not be reached until fall.

## Will Tender For All-Red Route.

London, May 27.—Sir Charles Cavender of the Clan Line, says he is prepared to tender for a new red route with the speed quite obtainable if Equator and the colonies were prepared to pay for it.

## Forty Bookies Summoned.

(Special to The Chronicle)

Toronto, May 29.—Forty bookmakers were summoned to the police court to-day, to answer to charges of betting at the race meetings just finished.

## Telegraphers Want More Pay.

(Special to The Chronicle)

Winnipeg, May 29.—The C.P.R. telegraph operators in convention have decided to demand higher wages. The delegates are engaged in drawing up a new schedule.

## South Oxford Liberals Nominate.

(Special to The Chronicle)

Tilsonburg, May 29.—The South Oxford Liberals at a big convention have nominated M. S. Scher, M. P., for the Dominion House, and Dr. McKay, of Ingersoll, for the legislature.

## Franco-Japanese Agreement.

Paris, May 28.—The Accord on the Franco-Japanese Convention is complete. The minister of Japan and foreign minister Picoté will exchange signatures before the end of the week.

## Staff Changes.

Calgary, May 29.—It has been made necessary by the changed condition in passenger and freight traffic in the western division to reorganize the divisions to cope satisfactorily with them. General Superintendent's district with headquarters at Medicine Hat.

The change will be as follows: From Swift Current to Calgary and to Lethbridge will be one division under the immediate jurisdiction of J. S. Lawrence, now superintendent of the Nelson division.

From Nelson to Lethbridge and to Strathcona and on the branch lines in the north, Superintendent Niblock will be superintendent, and Asst. Supt. E. L. Chudleigh will be stationed at Strathcona.

Superintendent Erickson, of the Crossed West division, will have charge of the road from Lethbridge west, and also of the branch from Melod to Calgary.

A. Allen, present night dispatcher at Calgary, will be appointed chief train dispatcher at Medicine Hat, and A. Hobbick, at present road foreman at Calgary, will be appointed the trainmaster of the new district with headquarters at Lethbridge.

The new time-table will go into effect on June 2. Numbers 1 and 2 will run west of Calgary to the coast. No. 1 will arrive at 16.25 and No. 2 at 12.35.

Numbers 96 and 97 will run west, arriving at Calgary at 24.15 and 12.35 respectively.

The St. Spokan passenger will run from Calgary to Spokane via Medicine Hat, Cranbrook, etc.

## Not Many Changes.

(Special to The Chronicle)

Calgary, May 29.—The Alberta Methodist conference finished this morning. The last draft of the station book but a few changes in the Edmonton district.

C.H. Hueston goes to Red Deer, T. A. Bowen and Dr. Hobbick to Calgary to the district by virtue of his office as president. The other chairmen of districts are—Calgary, G. W. Kerby; Medicine Hat, A. C. Farrell; Lethbridge, J. M. Harrison; High River, T.P. Polley; Red Deer, C.H. Hueston; Lacombe, H.E. Gordon; Stettin, A.D. Richard; Wetaskiwin, W.E. Daley; Port Saskatchewan, W.J. Howard; Vermilion, A. R. Aldridge.

## Ticks from the Telegraph.

Portage La Prairie has received \$50,000 for current expenses.

The town of Yorkton, Sask., is planning to install a waterworks system.

The Oddfellows of Saskatchewan are holding a meeting in Regina to-day.

Port Arthur has awarded the contract for a new \$30,000 public school.

## New Line to Twin Cities.

(Special to The Chronicle)

The Northern Pacific Railway has secured a new line from Winnipeg to Minneapolis and St. Paul.

## Three Weeks Late

(Special to The Chronicle)

Ottawa, May 29.—The inspectors of the Agricultural Department state that the western wheat crop is three weeks late.

## A Winnipeg Suicide.

(Special to The Chronicle)

Winnipeg, May 29.—Mrs. H. Weidner, a young woman, residing in Norway, committed suicide yesterday afternoon by drinking carbolic acid.

## Council Met Last Night.

Street Numbering Plan Decided.—Liquor and Dog Licenses Increased.—Addition to Iroquois Hotel Refused.

All the members were present at the session of the city council last night and a good deal of work was got through.

J. R. Lavell writing on behalf of Dietz and Main asking for a final settlement with regard to the power house contract. The letter pointed out that it was no fault of the contractors that the work was not completed, and there was nothing left to do which could not be done by the corporation at their convenience.

Messrs. Carstairs and McGinn, proprietors of the Iroquois Hotel wrote through Mr. Lavell, asking for permission to add to the accommodation of their hotel, and presented two alternative ways of accomplishing this.

One was the addition of a building to the rear of the present one and the other was the raising of the roof and the conversion of the roof into a habitable story.

It was pointed out that the great influx of people made an addition to the hotel accommodation a necessity. It was not desired to add to the front of the hotel at present.

It was the intention of the proprietors to put up a brick building later, but there was no prospect of obtaining the necessary brick or stone for such a building at a reasonable price.

It was imperative that something should be done. The proprietors pointed out that no additional risk of fire would be incurred and offered to provide watchmen and other safeguards.

They would also guarantee the property owners on the question of the advisability of granting the request, and were convinced, from personal investigation, that those views would be favorable.

A short discussion followed the reading of this letter. Most of the aldermen appeared to sympathize with Messrs. Carstairs and McGinn but on principle it was resolved that the secretary be instructed to write, referring them to the fire limit by law.

In a short letter H. F. Sandeman stated that he had received a communication from Mr. Lott, who had written to Winnipeg asking his company to hold lots 4, 5 and 6 in block 88, until the end of the month. This land is the proposed site of the Bailey Soap Works, and the delay is to enable the bylaw to be voted on.

Several communications were ordered to be laid on the table for consideration later.

One from the mayor recommending the appointment of a police magistrate and of an inspector of dairies and slaughter houses.

Another was from R. Ochmer who asked that the amount expended by him in laying water pipes from the city main to the brewery be deducted from the taxes owing by him to the city.

A third was from Superintendent Jamieson, and referred to C.P.R. crossings in the city.

The Rev. W. R. George reported on behalf of the petitioners for a public library that a librarian could be engaged for about \$150 per annum, a room rented for \$180 per annum and that an expenditure of \$300 on books

was given two readings. The new measure raises the tax on dogs to \$2 and that on tickets to \$6. It was felt that there were too many useless cars running round the city.

"We would have enough to build the hospital," declared Alderman Rankin, "if we had \$2 for every dog in town."

The council adjourned until Thursday evening.

## College Will Get More Money.

Calgary, May 29.—At the Monday afternoon session of the Alberta Methodist Conference, the discussion centered around the report of the committee on the question of apportionment of funds for educational purposes for next year.

The committee were as follows:—Hon. W. H. Cushing, chairman; Dr. A. M. Scott, secretary; W. G. Hunt, J. E. Irvine, J. Benson, Jas. Spinkman, J. T. Fowler, W. W. Smith, Wm. Weeks, and Rev. Dr. Kiddell.

It was stated that the college had in the past years been receiving one and a half per cent, but on account of the forward movement of the educational

and papers would be sufficient for the first year.

Petitions for an eight foot granite walk on the north side of Rouleau Avenue from the north east corner of block 44 to the northwest corner of the same block, and a ten foot granite walk on the east side of Niblock Street from the northwest corner of block 62 to the south west corner of block 49, were referred to the public works committee.

The public works committee reported recommending the purchase of a cheap horse and wagon for the use of the superintendent of sewers and waterworks in distributing sewer pipe and flushing sewers, if possible the electrician to be granted the use of the same when required by his department.

Alderman Rankin, in moving the adoption of the report, said that at present they were paying seventy cents an hour for a team to do the work which it was proposed should be done by the horse to be purchased from the city.

The fire and light committee reported, recommending the supplying of pipes for light and motors after June 15th and on motion the report was adopted.

The public works committee reported in favor of granting the petition for an eight foot granite walk on East Railway Street north from Wharf Avenue.

It was resolved that a contract for twenty-five electric light meters be given to the Canadian General Company at a price of \$1,013.10. The Packard Company offered to supply the required number for \$948.70 but their quote was not considered by the city electrician as equal to those of the Canadian General Company. The Westinghouse Co. quoted \$1,061.60.

It was resolved after discussion in committee of the whole, that while avenues and main street retain their names and that the streets and avenues be numbered east and west and north and south from those thoroughfares in consecutive order; that Saskatchewan Avenue retain its name and that the name of South Avenue be changed to University Avenue, that East and West Railway Streets retain their names but their widths were not considered by the city electrician as equal to those of the Canadian General Company.

It was resolved after discussion in committee of the whole, that while avenues and main street retain their names and that the streets and avenues be numbered east and west and north and south from those thoroughfares in consecutive order; that Saskatchewan Avenue retain its name and that the name of South Avenue be changed to University Avenue, that East and West Railway Streets retain their names but their widths were not considered by the city electrician as equal to those of the Canadian General Company.

## Cost of Long Distance Phones

Montreal, May 28.—The cost of operating long distance lines was the chief topic of discussion at the meeting of the Bell Telephone Co., to-day. O.T. Stanton, the chief engineer of long distance construction was recalled and showed how the figures given him yesterday was made up. After O.T. Stanton had shown C.F. Siao, Jr., general Supt., recalled the cost of operating the long distance phones was made up roughly and this took up all the morning.

Mr. Siao explained that the cost of operating over lines extending over twenty miles was more than for the shorter ones, as copper wire must be used for these lines. He then explained the things that add to the cost of operating these lines. In the longer connections the messages had to pass through more offices and the connection had to be "built up" from one to another which means more expense. They show that the line is warrant it the intermediate lines have been taken out and direct wires have been put in. The cost of operating was made heavier by the delays in getting people over the long distance wires. Tests that had been made at different points, were put in evidence they show that the line is in actual use only about one third of the time. Mr. Siao also pointed to the difference between the telephone and telegraph companies in this regard and his statement was that a telegraph line would admit some fifteen hundred messages a day if necessary, the telephone line could only handle something like forty. Thus showing that the telegraph line is a much greater revenue producer. The slot telephones of which there are about a hundred in Montreal were also explained. Formerly it had been the case that many people could rarely get the use of their own phones on account of so many other people using them without paying for the privilege, and they had so many complaints from their subscribers that a telegraph line had been decided to put in the slot phones. At first there had been much opposition to the idea, but now was proving very satisfactory and there was never any protest against the change.

## Wheat Crop In Southern Alta

Lethbridge, May 28.—The wheat area to be sown this year in Southern Alberta is almost double that of last year. East of here there will be over 7,000 acres of wheat sown, an unprecedented increase over last year's acreage in crop. Farmers are jubilant over prospects. All crops are fairly well on winter wheat being several inches high.

PORT ARTHUR WILL BE BUSY

Port Arthur, May 28.—D. B. Hanna looks for a busy summer for Port Arthur. "We have over 3,000,000 bushels of wheat in the interior elevators awaiting the movement to the head of the lakes. Besides this we have some 1,000,000 bushels loaded on the cars on route to Port Arthur. I think the Canadian Northern will easily handle 20,000,000 bushels of last year's crop."

## Washed Overboard

Sault Ste. Marie, Mich., May 28.—The steamer M. A. Hanna, which panned the docks early this morning, passed that while in the storm on Lake Huron yesterday a woman, Bert Calk, was washed overboard and drowned off Alpena. He was at work baling down hatches. His home was at New Baltimore, Mich.

## Gowland Confessed.

Killarney, May 28.—Lawrence Gowland, the man who murdered Miss Georgina Brown near this place last week and then attempted to take his own life by cutting his throat with a knife, broke down to-day and confessed he had committed the deed.

## No Municipal Ownership For Him.

New York, May 28.—Mayor McCellar late today vetoed the public utilities bill

## Men's Shoes and Suits

Our stock of McPherson shoes for men is now complete and without doubt they are the most comfortable shoe on the market today. Prices from

## Banks In Canada Shortening Sail.

Are Curtailing Credit On Speculative Investments.

Ottawa, May 28.—The bank statement for April reflects the remarkable progress which the Dominion is making. It shows that the banks are "shortening sail" and curtailing credit on speculative investments.

The notes in circulation in April, 1907, were \$72,842,000, against \$78,811,013, in March, and \$66,830,077 in April, 1906.

The deposits payable on demand increased by over ten million dollars in the year, the figures being:—

April, 1907.....\$167,217,947  
April, 1906.....\$163,857,868  
April, 1905.....\$157,147,012

The deposits payable after notice also show a substantial increase. In April, 1907, they totaled \$373,370,154, in March, \$369,290,184; and in April, 1907, \$407,370,491.

Dominion note circulation increased by nearly \$3,000,000 in the month, and by nearly \$3,000,000 in the year, the figures being:—

April, 1907.....\$30,689,187  
March, 1907.....\$27,631,091  
April, 1907.....\$45,407,377

Call loans on stock in Canada are over \$5,000,000 less than in April, 1906, when they totaled \$55,200,615. In April 1907 they amounted to \$50,357,366, against \$52,676,592 in March. Call loans elsewhere also show a decline. In April, 1907 there were \$31,745,814; in March, 1907, \$51,430,792, but in April, 1907, had been reduced to \$48,540,477.

Current loans in Canada have increased by nearly one hundred millions in the year. In April last they totaled \$286,149,738, against \$279,067,554 in March, and \$285,582,174 in April, 1906. Current loans elsewhere, on the other hand, show a decline from \$38,578,164 in April, 1906, to \$35,805,188 in March, 1907, and \$28,582,174 in April, 1907.

The total assets of the Canadian Banks in April were valued at \$551,053,557, against liabilities of \$773,934,327. The comparative figures in April, 1906, March, 1907, assets, \$943,995,380; liabilities, \$65,737,503; April, 1906, assets, \$843,569,867; liabilities, \$681,700,160.

## Coal Commission Convened.

Lethbridge, May 28.—The Alberta Coal Commission convened here this morning and organized for their work. They will hear the Lethbridge and Labor miners here and the Crown News Pass miners at Frank.

## THE NORTH WEST FIFTY YEARS AGO.

Some of the items reprinted daily from the Globe of half a century ago give curious glimpses at a state of affairs within the area of the present Dominion which ought to be more familiar to Canadian students than it is.

The one of Saturday last says a member of parliament had called the attention of the government of the day to a report that the detachment of the Canadian Rifles intended for service in the Red River country was to be sent thither from this part of Canada by way of Hudson's Bay. According to the same reprinted item of news another member had called attention to an intimation that the Imperial Government intended to send out an exploring party by Lake Superior, and the opinion was expressed that the military authorities would abandon the Hudson's Bay route, the adoption of which, in The Globe's opinion was due to misrepresentations put forward by the Hudson's Bay Company.

This fifty-year-old item recalls the union of the Hudson's Bay Company with the North West Fur Company in 1820. The former had brought in its supplies by way of the Rocky Mountains by canoe up the St. Lawrence and over the great divide separating Lake Superior from Lake of the Woods. In spite of the unimagined of the companies the rivalry between the routes continued, and it was over the old Northwest Company's track that the Canadian government constructed the Dawson route by means of which, Wolsey's expedition made its way to Fort Gary to suppress the first Red rebellion.

The item recalls also the fact that so late as 1867, about a dozen years before the Hudson's Bay Company sold out its land, with certain reservations, to the new Dominion, it was still influential in British politics. Out of the vast expanse then conveyed to Canada have since been formed the three provinces of Manitoba, Saskatchewan and Alberta, not to speak of the regions known as Keewatin, Mackenzie, and Yukon Territories.

Whatever may be said against the long regime of this great trading and land owning company, there can be no doubt that we owe to its hard and fast grip on the territory the fact that it was available immediately after the declaration to connect the older provinces with British Columbia and thus enter the Dominion to the Pacific ocean. Lastly, the item recalls the fact that the Globe was half a century ago a persistent and intelligent critic of the Hudson's Bay Company's motives and methods, and that it was an equally persistent and intelligent advocate of the settlement of that great country, which is now playing so important a part in the evolution of this continent. No misrepresentation by the company's officials, and the political air of the time was full of them, had the highest effect in shaking the convictions or dunting the courage of the old Reformers who had as much contempt for the Hudson's Bay Company as they had for the Colonial Office. How much The Globe's steady advocacy meant for the upbuilding of the Dominion can never be reckoned up, but the reader of these reprint excerpts from its columns will get glimpses of the truth of the matter.—Globe.

## STRATHCONA TOWN FOUND

Take notice that I have this day, May 26, 1907, impounded the following described animals found running at large contrary to the by-law in such cases and provided, namely: 1 white gelding about 8 years, branded P.D. on left hip; 1 roan gelding about 8 years, branded crow's foot on left shoulder, weight about 700 pounds.

Now take notice that I shall sell at Public Auction to the highest bidder, for cash, the above described animals, in the rear of Coulson & Co's barn in the city of Strathcona, on Saturday, the 8th day of June, 1907, at 11 a.m. in forenoon, unless the cost of impounding, keep, and other incidental expenses are sooner paid.

Dated at Strathcona this 27th day of May, 1907.

Henry Wapshott,  
Poundkeeper.
